

# Stop thieves in their tracks with Total Vehicle Solutions

## A4615P 2DC/S7

**FEATURES & BENEFITS**

- Delivers an exceptional level of vehicle security
- Protects against key cloning (particularly keyless entry vehicles) and vehicle theft
- Includes My Connected Car App
- Fully Thatcham accredited
- Remote notification of unauthorised entry, directly to your mobile device

This solution may also be configured with our Protect & Connect S5 vehicle tracking device - please contact our Sales Desk for details

**KIT CONTAINS:**

- 4615 P vehicle alarm
- Protect & Connect S7 asset location device
- 2x Automatic Driver Recognition cards

## A4615 MHP/S7

**FEATURES & BENEFITS**

- Fully protects every point of entry including habitation area\*
- 2 additional remotes
- Alarm notification directly to your mobile device if the alarm is triggered

This solution may also be configured with our Protect & Connect S5 vehicle tracking device - please contact our Sales Desk for details

\*Additional reed switches may be required on certain vehicles

**KIT CONTAINS:**

- 4615 MHP vehicle alarm
- Protect & Connect S7 asset location device
- 3m Alarm/SVT link lead

## A4615P 2DC/MW

**FEATURES & BENEFITS**

- Unique protection for van and its contents
- Protects against unauthorised LCV entry and vehicle starting
- High level vehicle theft protection
- Microwave protection for load area
- Guards against peel and steal

**A4615P 2DC/MW+SIREN**

- As above but with additional siren for load area

**KIT CONTAINS:**

- 4615 P vehicle alarm
- 2x Automatic Driver Recognition cards
- Microwave sensor with 4m lead

Vodafone Security Systems

Together we can  
**Vodafone  
Automotive**

# Everything you need to protect vehicles with alarms

With over 74,000 cars stolen and 200 vehicles stolen every day (that’s one every 9 minutes) in 2020\*, plus over 217,000 reported cases of theft from a vehicle\*\* - security might be on your mind. We can help, as a supplier of many of the world’s most advanced standard fit vehicle security systems.

All our anti-theft systems are designed and manufactured in Italy at our own state of the art production facilities, exceeding the stringent requirements of the major vehicle manufacturers and the strictest European quality standards.

Vodafone Automotive offers a comprehensive portfolio of vehicle security solutions, with an extensive range of programmable features. Our alarm systems are Thatcham-approved and recognised by the UK’s major insurers, who may offer a reduced insurance group rating or premium discount in return for fitting one.

We offer a range of high tech wireless alarms that reduce fitting times and drive down security costs for new and used cars, and light commercial vehicles.

**New 4600 Series - Wireless Alarms**

The 4600 alarm series (except 4693) is Thatcham CAT 2-1 accredited and provides maximum installation flexibility, cutting fitting time by around 30 minutes thanks to wireless communication between the central

unit and the siren. A secondary benefit is that the alarm installation doesn’t interfere with the integrity of the vehicle, as no holes are drilled in the vehicle’s bulkhead.

The series is available with or without remote control arming/disarming, and standard features include a built-in immobiliser, passive arming, perimeter protection of the boot, doors and bonnet, built-in ultrasonic and an anti-hijack facility.

The system is designed to be fully compatible with a wide range of CAN bus protocols and can be used both for CAN and non CAN-based vehicles. Available in PLIP, CAN or mixed CAN/PLIP versions, with or without remote controls.

\*Office of National Statistics, 2020      \*\*Office of National Statistics, 2019-20

## Designed to suit all needs

- 

Wireless connection between siren and central unit, cutting fitting times
- 

Can be used on all vehicle types including passenger cars, motorhomes and commercial vehicles
- 

Fully compatible with a wide range of CAN bus protocols and can also be fitted to non CAN-based vehicles
- 

Fully automatic: when locking or unlocking the vehicle doors using the original remote control, the system is automatically armed and disarmed
- 

Smooth integration with vehicle electronics, complying with the most stringent of automotive regulations
- 

High protection of vehicle perimeter (doors, boot, and bonnet) with ignition lock tamper protection

## Product range

- Compact Remote Alarm A4693**

The A4693 is a compact remote alarm system that offers protection to door, boot and bonnet, plus interior ultrasonic protection
- Compact Remote Alarm A4698**

The A4698 is a compact remote alarm system that offers protection to door, boot and bonnet, plus interior ultrasonic protection
- CAT 1 Modular Alarm A4138**

The A4138 mini modular alarm features a double engine immobiliser module, speed limit alerting and panic functionality

- CAT 2-1 A4615P (2DC) and A4615MH for Motorhomes**

The A4615 alarm is suitable for 2 wire CAN vehicles. The motorhome version comes complete with 2 remote control fobs. Optional 2x Automatic Driver Recognition cards available (2DC)
- CAT 1 Modular Alarm A4138HF**

The A4138HF mini modular alarm offers the same functionality as the A4138, with high frequency instead of ultrasonic protection
- CAT 2 Immobiliser A8510**

The A8510 Immobiliser is a touch key operated, two circuit immobiliser, insurance approved to Thatcham CAT 2 status
- Keyless Entry System A1046**

The A1046 Keyless Entry System allows existing key operated central door locking systems to be activated from a remote key
- CAT 2-1 Modular Alarm A4198**

The A4198 mini modular alarm offers enhanced safety features such as speed limit alerting and panic button functionality
